For our horses to thrive, equine environmental health is critical. We at Equine BIO Genie make it our business to supply you with the latest biocidal technology to ensure the best for your horse, you and your environment.

We've done the science, so you don't have to.

Effective bactericide, fungicide, virucide · No harmful residuals  
No rinse formula · No chlorine, quats or PHMB

Application: Suitable for equine applications

*"We use Equine Bio Genie as our main disinfectant at Rosssdales. The product works well to kill the major pathogens that we encounter. We are also happy to use a product that has less negative environmental impact"*

Emily Floyd - Clinical Director, ROSSDALES EQUINE SURGEONS

## THE LEADERS IN EQUINE ENVIRONMENTAL HEALTH & BIO SECURITY

Higher efficacy, zero toxicity.

### ABOUT US

We at Equine Bio Genie have made significant progress in the field of Equine Bio-Security. We have utilised a world-leading medical-grade disinfecting solution to benefit the thoroughbred industry and beyond.

Driven by science, passion and a deep understanding of the horse, we have introduced products with a higher efficacy against all equine bacteria and viruses while having zero toxicity to the horse and its environment.

### WHY OUR DISINFECTANT?

- ✓ A unique formula of Hydrogen Peroxide & stabilised Ionic Silver, a FULL spectrum biocide, while maintaining 100% Biodegradable credentials.
- ✓ Our product does not contain QUATS/PHMB or other harmful chemicals.
- ✓ Effective against gram negative & positive bacteria. NON Corrosive & safe to dispose into the environment & waterways
- ✓ Veterinary Grade EN1656 / EN1657  
Can be used for dipping bits / surface disinfection / washing machines

### UNIQUE

Proven to be **5 times** more powerful than commonly used equine disinfectants

Manufactured to a medical grade standard.

### TRUSTED BY PROFESSIONALS

Used by Top UK Equine Hospitals & Equine Professionals yet available to ALL!

### EQUINE SPECIFIC

Tested at the Irish Equine Centre in clean and dirty conditions, against RINGWORM, STRANGLES, ASPERGILLUS & EHV.

Efficacy tested using an equine serum
